How to install the brush set:

1. After downloading the file unzip it (if this is an archive).

2. Start your Photoshop.

3. Activate the "Brush" tool.

4. Press F5 and then click on the "Brush Presets" button in the just opened window with brush settings.

5. In the opened window with brush presets find the little arrow in the upper right corner. After clicking on them, choose "Load Brushes..." in the drop list.

6. In the opened file browser find downloaded brushset (EldarZakirov's FUR Brush set for PS.abr) and double click it.

7. Now your brushes are awailable in the brush list in its' end and ready for using.

8. Enjoy and create a great work! Thank you for the purchase!
