“I like to walk, touch living Mother Earth — bare feet best, and thrill every step. Used to envy happy reptiles that had advantage of so much body in contact with earth, bosom to bosom. (We) live with our heels as well as head and most of our pleasure comes in that way.”

“People generally fall into one of three groups: the few who make things happen, the many who watch things happen, and the overwhelming majority who have no notion of what happens. Every person is either a creator of fact or a creature of circumstance. He either puts colour into his environment, or, like a chameleon, takes colour from his environment.”
