# How to Use This Book

Break out your crayons or colored pencils.

---

Turn off your phone, tablet, computer, whatever.

---

Find your favorite page in the book. That is the beginning.

---

Start coloring.

---

If you notice at any point that you are forgetting your worries, daydreaming freely or feeling more creative, curious, excitable, delighted, relaxed or any combination thereof, take a deep breath and enjoy it. Remind yourself that coloring, like dancing or falling in love, does not have a point. It is the point.

---

When you don't feel like it anymore, stop.

1: Buy me

# About the Artist

I've been creating characters that create smiles across the globe for the past 25 years. This included being the creative head of the humor divisions for both Hallmark and American Greetings in the UK before setting up the eponymous Backland Studio in 2007.

I have a great team of people who work with me. Aunty Acid is based on a real person. If you have any questions or comments, please get in touch with me directly at [gedbackland@yahoo.com](mailto:gedbackland@yahoo.com). I'd love to hear from you and get your feedback.

# About the Artist

Katie was born and raised on the Isle of Wight, a little island at the very bottom of the UK. Her passion for art has evolved over the years, using her surroundings of beaches and open countryside as inspiration.

A self-taught artist and owner of Lollipop Letters Cuts, Katie published *Exotic Animal Designs*, her first coloring book with Blue Star, in 2015. This is her second coloring book with Blue Star.
