### How to Use This Book

Break out your crayons or colored pencils.

Turn off your phone, tablet, computer, whatever.

Find your favorite page in the book. That is the beginning.

Start coloring.

If you notice at any point that you are forgetting your worries, daydreaming freely or feeling more creative, curious, excitable, delighted, relaxed or any combination thereof, take a deep breath and enjoy it. Remind yourself that coloring, like dancing or falling in love, does not have a point. It is the point.

When you don't feel like it anymore, stop.

## m About the Artist m

Residing in England, Bonnita is a work junkie who thrives under pressure. She is a mother of two young girls and is a professional designer and illustrator. Steampunk, Studio Ghibli and all things quirky get her attention. In early 2015 her best friend introduced her to Zentangling, and before long, she had self-published Behind the Secret Door, her first coloring book. Steampunk Ocean is her second coloring book, and her first collaboration with Blue Star.

### Connect. Receive. Share. Inspire

Introducing a new way to connect with your favorite coloring art.

This is huge. We here at Blue Star Coloring are proud to announce the launch of our new coloring subscription service: Inspire.

#### Why a Subscription Service?

Because you asked and we listened. You told us that you wanted more variety, more styles and more artists to choose from without having to shell out for each individual book. With Inspire, you will receive new coloring images delivered to your email inbox each week. These images are exclusive — meaning they aren't available anywhere else, online or offline. Also, each coloring page is by a different Blue Star illustrator and will feature their distinctive style and imagination.

#### Sounds Awesome! How do I get in on this?

It's easy - just sign up at bluestarcoloring.com/inspire, and you'll receive your coloring pages by email. You'll get pages every Wednesday for the rest of the month.

Ve'll handle the rest.
